

PRIMARY CRICKET

UNDERAGE TEAMS

Coaches are encouraged to rotate batting and bowling order on a weekly basis so that all players feel that they are contributing to the team's performance. The concept of two or three students dominating the batting and then bowling the majority of overs is to be completely discouraged.

The winning of matches at this level is NOT the prime reason for playing.

Coaches are encouraged to discuss the philosophy of each game with the opposing coach prior to the commencement of play.
